Proposed Development (NOTE: This application must set forth all facts upon which you rely to establish your right to relief from the present requirements of the Revised Zoning Ordinance. If additional space is needed, additional pages may be annexed to this application).

On January 24, 2018, the subject property received a zoning permit to convert the prior homeless shelter use back to the prior residential use, which includes sixteen (16) apartment units. The Applicant is proposing to expand the sixteen (16) apartment unit improvement to twenty (20) apartment units by rehabing one (1) existing basement residential dwelling, and adding four (4) basement residential dwellings. Per the Township of Irvington Zoning Ordinance, Definitions, 650-4, a "Cellar" is defined as "a story...having 1/2 or more of its floor-to-ceiling height below average level of the adjoining ground. No cellar or portion thereof shall be used as a dwelling unit." A "Basement" is defined as "a story partly underground and having more than 1/2 of its height above the average level of the finished grade at the front of the building." As such, it is Applicant's position that the additional four (4) apartment units are basement units, and therefore permitted. However, D variance relief will be required as Applicant is seeking to expand a pre-existing nonconforming use and density including. I hereby swear and depose that all of the above statements and the statements contained in additional bulk variances which shall advance the principals of the municipal land use law. the papers submitted herewith are true.

The Applicant is proposing to expand the sixteen (16) apartment unit improvement to twenty (20) apartment units by rehabing one (1) existing basement residential dwelling, and adding four (4) basement residential dwellings.
